

AVK MAGNUS PE100 BALL VALVES
Fusible ends / Minimum full bore on all body sizes
Valve sizes OD25 up to OD180

85/50
010
HDPE/BV

The AVK MAGNUS universal ball valve is for use in the isolation of water & gas on domestic, commercial and industrial premises. The ends are designed for butt-/electro-fusion making the valve an integral part of the fully welded leak-free pipe system.
The valve is designed, manufactured and approved to worldwide leading standards.

Features

- Robust design, suitable for most harsh environments
- Material selection body and spigot (PE100-RC) offering excellent resistance to crack propagation
- Seat, ball and grease combination ensuring low operating torques and avoids sticking over time
- Selected ball material offering good scratch resistance
- Grease with minimal wearing off from the lubricated surfaces for improved long term performance
- Double spigot length allowing for two electrofusion joints
- Traccoding (barcode) + AVIT (QR code) - asset management to record, track and identify where valves are located and ensure traceability at all times
- Seat compression of large sealing surfaces precisely set via separate pre-assembly
- Flexible spindle shaft to ensure equal compression around the O-rings when loaded by internal pressure
- Operating lever for all sizes (OD25-OD180)

Tests/Approvals

EN1555-4, ISO4437-4, GB15558.3 and EN12201-4
