

AVK CERTUS PE100 BALL VALVES

Fusible ends / SDR11 / GAS MOP10 - WATER PN16 / Full bore¹

Valve sizes OD20 up to OD180

85/30

002

HDPE/BV

The AVK CERTUS universal ball valve is for use in the isolation of water & gas on domestic, commercial and industrial premises. The ends are designed for butt-/electro-fusion making the valve an integral part of the fully welded leak-free pipe system.

The valve is designed, manufactured and approved to worldwide leading standards.

Features

- Seat, ball and grease combination ensuring low operating torques and avoids sticking over time
- Grease with minimal wearing off from the lubricated surfaces for improved long term performance
- Easy mounting of all standardised spindles due to internal and external drive
- Overtorque protection and replaceable top cap under live conditions
- Available with double spigot length allowing for 2 electrofusion joints
- Traccoding (barcode) + AVIT (QR code) - asset management to record, track and identify where valves are located and ensure traceability at all times
- Seat compression accurately set during automated welding process

Tests/Approvals

EN1555-4, ISO4437-4, GIS/V7-2 and EN12201-4

Accessories/Options

- Support base (up to OD90)

¹ Sizes with full bore (ID = >80%): OD40, OD125, OD180

Sizes with clearway bore (ID = 100%): OD20, OD32, OD63, OD90, OD110, OD160
